

 **No VOC**

Eco-Friendly and Rejuvenating High Performance Cold Patch™

Six key attributes make HP ER the most effective solution.

1. PLIABLE

In the pile, in the bag, or in the hole, the proprietary blend is engineered to allow the material to remain workable in all climates and temperatures - even below freezing.

2. STABLE

Enhanced binder design strengthens aggregate matrix ensuring repair remains together. Open to traffic immediately. No raveling or rutting.

3. STRONG REPAIR

Rejuvenators and adhesion promoters provide increased cohesive strength so the repair stays in place.

4. EASY COMPACTION

Select aggregate type and gradation is designed to accommodate easy and thorough compaction.

5. SINGLE COMPONENT

Doesn't require multiple components, water, or activators. Aggregate is fully pre-coated, creating a strong and long lasting bond.

6. ENHANCED ADHESION

Strengthened adhesive properties keep material together even when applied in wet conditions without any separation of the aggregate.

Crafcro HP ER Cold Patch™ is a high performance, ready to use, permanent pavement patching material. **Crafcro HP ER Cold Patch™** is specially formulated with **No VOC** and a proprietary blend of rejuvenating & adhesion promoting additives to improve the repair's longevity for long-term performance.

With **Crafcro HP ER Cold Patch™** you can **STOP** repairing the same holes over and over again! **Crafcro HP ER Cold Patch™** is easy to use – no mixing, heating, or special application equipment required and is ideal for repairing potholes, utility cuts, wide cracks, and other pavement voids and distresses on roads, highways, airport pavements, bridge, and parking decks, and much more. Use on asphalt or concrete.

Available in: Easy-to-use 50 lb. bags & bulk!

The recognized leader in asphalt modification technology. Our materials development team innovates new products through ongoing research to provide our customers with safe, eco-friendly products that offer superior performance.
